

## **CCA Wattis Institute**

- The only institution in San Francisco dedicated entirely to contemporary art and ideas
- The central headquarters for contemporary art and the contemporary art community in San Francisco

Working with one artist at a time, in three different ways:

- An exhibition of one artist's work
- An exhibition curated by one artist
- Research about/around one artist

Ecco i sei pezzi che compongono la famosa sedia di Thonet. Le gambe posteriori e lo schienale sono un unico pezzo. La tecnica è quella del legno curvato, il montaggio è semplificato, i costi sono ridotti.
